---

I'll think about it a bit more, and you may want to look back through the prior discussions, but my remembrance/thoughts at first blush: we don't regulate noise as a public nuisance, and four events fits within the current allowed parameters (pulling both from the assembly ordinance and the zoning regs).

I'd respond with something simple: "Thanks. We're reviewing the public assembly permit ordinance now, and this will be provided to the Planning Commission members as part of that process."

Hello Jeff,
I live at 1588 Rogers Road in Randolph Center, Vt.
My home is located just 525 ft across from the staging area
of the Williams Family Tractor Pull.

Here are 4 links to videos that are currently posted on The Williams Family Field of Dreams Facebook Page which is open to the Public.
You will need to adjust your volume levels as they are very loud.

I have taken numerous sound level readings from my front porch ,
which over looks the event.
The highest reading was at an earsplitting 98 db , recorded with
a professional sound meter.

I will be soon be forwarding some photos taken from the event which show the layout and photos of some of the competitors and their Highly Modified Pulling Tractors.

An aerial view of the location will also be included which shows the surrounding 12 homes located within a 1000 ft. zone of the event area.

Please feel free to forward this email to the other Zoning or Select board members for their consideration regarding these 4 scheduled upcoming events.

Thank you, Bill

Bill Daigle
